

Good day,

(1) Prescription

To order your medication, we need a new original prescription from your doctor. Canadian pharmacies will fill only for the amount shown, so if you desire a ninety-day supply it must show that amount. We need the exact amount taken and how often. For your convenience, you might ask the doctor to include refills (up to one year) on the prescription form. Most people order a three-month supply to save on shipping costs.

(2) Shipping/Payment

The shipping and handling charge is on a **tiered-basis** per person per order. With multiple medications, there is only one handling/shipping charge (per order). The cost of your medication and the shipping will be charged from Canada on your credit card. We do not put your credit card information on the Internet and all of your information is secure with us. If you desire to use a money order instead of a credit card, please call for special instructions. We do not take cash or checks.

Tiered –basis shipping is by the cost and benefits for the charge. Simply put, how fast do you need your medication and what guarantees are you comfortable with? We recommend tier #1. See “Questions ” on the web site for full information on loss guarantees and tracking protection.

- Tier 1. \$15.99; Tracking and replacement agreement, 4-7-business day’s delivery, airmail transport.
- Tier 2. \$ 9.99; No tracking limited replacement agreement, 7-16 business day’s delivery, airmail transport.
- Tier 3. \$ 5.00; No tracking, no replacement agreement, via Canada Post/US Mail, ground transport.

ps; We can ship prescription medication for your pet and over the counter medications.

(3) Required documents, Please fax or mail:

- ___ 1 Original Prescription(s).
- ___ 2 Completed Refill Page

Canada Drug Supply, P.O. Box 25463., Overland Park, KS 66225, Telephone (913) 663-4915
